COPYRIGHT OFFICE
THE LIBRARY OF CONGRESS

WASHINGTON 25, D. C.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1951, any article of the following named classes of published works deposited for copyright between January 1, 1947, and January 1, 1948, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific
or technical character.

Photographs.

Prints and pictorial illustrations excluding
prints or labels used for articles of merchandise.

Other published works and all unpublished works are not included in this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$0.50 per issue, \$1.00 per year.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains an alphabetical list of domestic and foreign maps, atlases and globes which were registered in the Copyright Office from January 1, 1950, through June 30, 1950. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement.—This catalog consists of complete entries arranged alphabetically under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map), and of brief entries in the form of cross-references from the geographical areas represented by the maps, from distinctive titles and from copyright claimants, editors, compilers and publishers.

Bibliographic Data.—Each main entry includes, as applicable: 1) title; 2) edition statement, together with any available information on previous publication; 3) imprint, consisting of place of publication, publisher and date of publication (imprint data is omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that date of publication agrees with corresponding data given in the copyright statement); 4) size, series and scale, given as a representative fraction if it can be ascertained and followed by the linear scale as it appears on the map; 5) descriptive notes.

When a sheet consists of two or more maps, all of which are included in the claim for copyright as given in the application, or when the title is selected from an outside cover and appears to include several specific map titles contained therein, the specific titles of the individual maps are given in a note preceding the copyright statement. In all other cases in which there is indication, from facts known to the Office, that additional maps printed on the sheet are not included in a specific claim, the note appears in brackets following the copyright statement. The note includes the position of the additional maps in relation to the one for which main

entry is made, e. g., "On sheet with," "On verso"; it also contains the title of the additional map, or the number of maps, if more than one, and, when accompanied by a separate copyright notice, a statement of the data contained in the notice. Inset maps, however, are noted only if they are included in the claim for copyright or if several appear on the verso, in which case they are included in the statement of the number of maps.

The area headings used in this catalog consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When the map contains three or more states comprising part of one of the major geographical divisions of the United States, one of the following headings is used; New England; Middle States; South Atlantic States; North Central States; South Central States; Mountain States; and Pacific States. If the area shown on the map does not coincide with any of the foregoing seven designations, one of the following subdivisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by: 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application (this statement is omitted when the edition specified in the bibliographic data represents the new matter); 2) the name of the copyright claimant and the chief place of publication (if not given in a separate imprint statement); 3) date of publication as given in the

copyright application, and 4) the registration number.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to the transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17, of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis

of registrations. Foreign works for which two copies have been deposited, under Section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the class symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

ABBREVIATIONS

The following list includes abbreviations used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

a.k.a.	—also known as	fold.	—folded

COPYRIGHT REGISTRATIONS FOR MAPS

January–June 1950

Class F—Maps published in the United States.	870
Maps published outside the United States.	13
	<hr/>
Total.	883

The above figures show the registrations for maps for January–June 1950, but do not necessarily represent the exact number of entries in this issue of the *Catalog*.

MAPS

An alphabetical list of all maps, atlases and globes registered during the period covered by this catalog. Each map is entered under authority (that is, the name of the person, firm, institution or other agency primarily responsible for the content of the map). Included in the list are cross-references from the geographical areas represented by the maps, from distinctive titles and from copyright claimants, editors, compilers and publishers.

COPYRIGHT OFFICE
THE LIBRARY OF CONGRESS

WASHINGTON 25, D. C.

REMOVAL OF DEPOSITS FROM
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1952, any article of the following named classes of published works deposited for copyright between January 1, 1948, and January 1, 1949, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific
or technical character.

Photographs.

Prints and pictorial illustrations excluding
prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$0.50 per issue, \$1.00 per year.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains an alphabetical list of domestic and foreign maps, atlases and globes which were registered in the Copyright Office from July 1, 1950, through December 31, 1950. Renewal registrations in this class made in this period are listed in Part 14A of the *Catalog*.

Arrangement.—This catalog consists of complete entries arranged alphabetically under the name of the "authority" (that is, the name of the person, firm, institution, or other agency primarily responsible for the content of the map), and of brief entries in the form of cross-references from the geographical areas represented by the maps, from distinctive titles and from copyright claimants, editors, compilers and publishers.

Bibliographic Data.—Each main entry includes, as applicable: 1) title; 2) edition statement, together with any available information on previous publication; 3) imprint, consisting of place of publication, publisher and date of publication (imprint data are omitted in whole or in part when the information supplied to the Copyright Office has indicated that the claimant given in the copyright statement is also the publisher and that date of publication agrees with corresponding data given in the copyright statement); 4) sizes, series and scale, given as a representative fraction if it can be ascertained and followed by the linear scale as it appears on the map; 5) descriptive notes.

When a sheet consists of two or more maps, all of which are included in the claim for copyright as given in the application, or when the title is selected from an outside cover and appears to include several specific map titles contained therein, the specific titles of the individual maps are given in a note preceding the copyright statement. In all other cases in which there is indication, from facts known to the Office, that additional maps printed on the sheet are not included in a specific claim, the note appears in brackets following the copyright statement. The note includes the position of the addi-

tional maps in relation to the one for which main entry is made, e. g., "On sheet with," "On verso"; it also contains the title of the additional map, or the number of maps, if more than one, and, when accompanied by a separate copyright notice, a statement of the data contained in the notice. Inset maps, however, are noted only if they are included in the claim for copyright or if several appear on the verso, in which case they are included in the statement of the number of maps.

The area headings used in this catalog consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When the map contains three or more states comprising part of one of the major geographical divisions of the United States, one of the following headings is used; New England; Middle States; South Atlantic States; North Central States; South Central States; Mountain States; and Pacific States. If the area shown on the map does not coincide with any of the foregoing seven designations, one of the following subdivisions under "United States" is used: northeastern, eastern, southeastern, central, northwestern, western, or southwestern.

The asterisk preceding the title indicates that Library of Congress printed cards are available. Orders for or inquiries regarding these cards should be addressed to the Card Division of the Library of Congress.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. This is followed by: 1) a brief statement of the new matter on which copyright is claimed when such a statement is given in the copyright application (this statement is omitted when the edition specified in the bibliographic data represents the new matter); 2) the name of the copyright claimant and the chief place

of publication (if not given in a separate imprint statement); 3) date of publication as given in the copyright application, and 4) the registration number.

The *Catalog of Copyright Entries* records the claimant in whose name a work is originally registered, and contains no record of subsequent changes of ownership. For information relating to the transfer of rights, search in the assignment records of the Copyright Office will be undertaken upon request to the Register of Copyrights and upon payment of the statutory search fee.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by sections 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Organization of the Catalog.—This issue of the *Catalog* is part of Volume 4 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title-page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis

of registrations. Foreign works for which two copies have been deposited, under Section 215 of Title 17 of the United States Code, are distinguished by a zero immediately following the class symbol. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

Orders.—The Office calls attention to the fact that orders for all parts of the *Catalog* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either with or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*
